

Get children growing with our Starter Kits!

Our Starter Kits give kids everything they need to start growing bumper crops! Each kit includes lots of goodies, along with an entry form for our competition to spur on their interest. And because profits from the sale of these kits help Send a Cow, it really is growing for good.

Add something special to your school... try a Keyhole Garden!

Send a Cow uses Keyhole Gardens in Africa to help families grow food all year round. Their clever design recycles compostable food and water, helping to combat climate change. They also make a really great school gardening project in the UK. Our Kits include simple instructions along with some 'Ugandan seeds' to help your pupils grow and learn.

Sunflowers

Sunflowers are easy for kids to grow, giving impressive results. Many African farmers also grow them for firewood and to feed their cows the seeds. And as our kits involve a sponsored grow, your pupils will learn about African families, and raise money for them at the same time - perfect!

Bag Garden Starter Kit Bag Garden Mini-Kit
